skyt ec Passive Speakers

SKYTEC ABS PA SPEAKERS

12-inch professional DJ speakers from Skytec. Surplusronics stocks the largest range of DJ speaker packages. Head into your Surplusronics store to check out the range. We aim to deliver you the best quality sound at the best possible price and these speakers are no exception.

Set in robust ABS plastic housings, these speakers offer very good sound reproduction in a package that can withstand the rigors of being transported on a regular basis. Making them ideal for mobile DJ's, bands, or any mobile performer. Also featuring top-hat holes at the base for mounting on stands and a strong, well positioned handle.

On display now at your Surplusronics showroom. Head on down and have a look and a listen! Our staff can help set you up with a full package including amps, cables, etc. Supplied as single units. Check our '2 for' pricing - we won't be beaten.

High quality PA speakers in durable, high impact moulded ABS enclosures giving superb sound quality making them ideal for disco and sound reinforcement applications in small and medium venues. Features:

- 2-way bass reflex system
- High efficiency low/mid woofer
- Titanium dome horn driver
- Stylish ABS moulded enclosure with integral carry handle
- The cabinets feature flying points, top hat for stand mounting and the angled design allows use as stage monitors.
- 2 x NL4 Speakon connectors
- Available in 12" and 15" versions

CITRONIC Pro Amplifiers

Citronic ULTIMA Professional PA Amplifiers

SPEAKON® CONNECTORS

All Citronic amplifiers are fitted with Speakon® sockets

These allow the plug to be locked in to the socket to provide a fully-insulated connection, eliminating the electrical shock risks associated with high power audio amplifiers.

ULTIMA PRO AMPLIFIERS

Citronic famous for the set and forget reliability in amplification has produced its best range to date. The PRO range sets the standard in build quality, reliability and features, making this new range a formidable force in the market place for price and performance

- Outstanding sound quality
- Innovative heatsink structure and temperature controlled fan ensure long, reliable operation
- Stereo and bridge modes
- Clip limiter to reduce distortion
- LF filter switch 5Hz, 25Hz, 50Hz
- Signal, overload and bridge LED indicators for each channel
- Balanced (XLR) and unbalanced (6.3mm) inputs
- Speakon® (NL4) and binding post outputs
- Robust construction and 19" rackmountable

Citronic, MPCD-S6 Single CD-Player

CITRONIC
PROFESSIONAL AUDIO

The MPCD-S6 Ultima, a hybrid using the features and function of the CD-S6 combined with the MP3 technology of the highly rated MPCD-4. It boasts a well-proportioned footprint, robust build, and stacks of user friendly features. An affordable professional option it also lends itself to the aspiring amateur with its clear and easy to use layout. An impressive feature-set puts the MPCD-S6 head and shoulders above the competition at this level. Those who are familiar with the CD-S6 will know how well the CD can be manipulated; with the MPCD-S6 the same control is available with MP3. While other players can have inaccuracies with the MP3 format the MPCD-S6 gives complete control with no slippage. A comprehensive CD/MP3 player, with a competitive price tag. An Inspiration for the creative DJ.

Microphones

UHF 32 channel Dual Diversity Wireless Microphone

Suitable for professional and stage use, this UHF wireless microphone system features 16 user-selectable channels on each microphone input to provide interference-free transmission. It also has phase locked loop (PLL) circuitry for frequency stability. Each channel has an LCD which displays the channel selection, frequency and signal strength. Each microphone is finished in a rubber paint finish for a better non-slip grip, the channel is selected with the up/down buttons in the battery compartment. Output is either via separate balanced line for each channel, or via an unbalanced 6.5mm mono line with the two channels signals mixed. The system includes 2 microphones with batteries, receiver unit in 19" rack-mount chassis, 14VDC plugpack and one metre 6.5 mono plug to 6.5 mono plug lead.
